

CHIEF OF POLICE ALERT FOR COYOTES

Recently, we have had another out break of coyotes in our neighborhoods. These animals can be dangerous, cats and other small domestic animals can be food sources for these animals.

Small children that are outside should be under the supervision of an adult. Walkers should not walk alone, and should only walk during daylight hours.

The Police Department will intensify patrols in the residential areas. Please call the Police Department at 375-8525 when you have a coyote sighting, so that we can document the incident for the California Fish and Game.
