UPDATE FROM THE CITY MANAGER 3/18/20

Dear Del Rey Oaks residents,

We continue to be concerned for the safety and well-being of all of our residents, but particularly those most at risk. The outpouring of care from our residents for one another is wonderful to see, whether it be kindness in the grocery store or while walking around the community getting some fresh air. Please know that our Police and Fire Departments continue to provide quality services to our community. Our first responders, by definition, are exposed to more of the population than most of the rest of us during this time of sheltering in place. If you know of someone who needs help, whether it be food, medication, or other necessities, and they are unable to get help from friends or family, feel free to call the non-emergency number for the Police at (831) 375-8525. While our Police are implementing measures to protect themselves and the public from the spread of the COVID-19 virus, they are more exposed than most, so we don't inadvertently want to expose our most vulnerable population to the virus through non-essential contact. If you need help, call and we will come. If we can help one another through family and close friends who may be less exposed, let's please do that.

Your Council continues to engage with the public and communicate with staff. I appreciate all updates as we work to share information as effectively as possible. Our website continues to be the best source of local updates, as well as those from the County, State and Federal Government.

At the Council meeting Tuesday evening staff hopes to bring an urgency ordinance to protect businesses and residents from evictions during this time of pandemic.

Virtual City Hall is working well so far. I want to thank our small staff for being so agile and responsive during this time. I also want to thank the Mayor and Council for their support and communication. I am in daily contact with the County CAO and my fellow City Managers. The collective response and the leadership shown is impressive. We will get through this together.

Best regards,

Dino Pick

City Manager
