March 23, 2020 Coronavirus (COVID-19) Update from the City of Del Rey Oaks

Our community continues to care for one another in a wonderful way! Our businesses are adhering to the shelter in place to protect our community, and suffering significant economic impact, with a great deal of grace.

As of March 23rd there were 14 cases of people infected in Monterey County and, sadly, the first death resulting from COVID-19. Maintaining social distancing, staying in our homes and washing our hands continue to be critical measures we all need to take to reduce the pace of spread of virus so our health care system is not overwhelmed and can treat those who need it.

Here are some resources to help you all stay informed:

If you want to receive updates by text message, text MCCOVID19 to 888777.

If you want to email a question to the County send it to COVID-19@co.monterey.ca.us

The Monterey County Health Department has established a hotline at (831) 769-8700.

The County has also established an Economic Assistance Hotline at (831) 769-1909.

We can expect the number of individuals infected to rise over the next several weeks, but we can slow the rate of spread with what we are each doing. Thank you for your diligence, patience, and caring for one another.

Respectfully,

Dino
