

Residents of Del Rey OAKS!

I am so happy to share this great news with you, particularly during this time. Thanks to the great work of Scott Donaldson and everyone associated with the Plant 100 Oak Trees Program, and the hard work of Karen Minami on our staff, the City has earned the distinction of Tree City U.S.A. for 2019!

There were many hands in this success, including our own local nursery, which contributed the oak trees at a steep discount. Thank you, Mori! Scott Donaldson developed the concept into a wonderfully simple and executable plan. The Citizen's Action Group funded the program along with a generous donation from Scott.

We will bring a Proclamation to Council at the April 28th meeting to submit with our 2020 application to continue this great program.

Respectfully,  
Dino
